1. Executive summary

DFS Corporate Portal is a standalone digital channel for corporate / entity customer onboarding and day-2 operations in an EMI / DFS environment.

It enables remote entity KYC aligned to the **SBP Consolidated Customer Onboarding Framework**, admin compliance review, corporate account provisioning into the DFS Agent platform, and post-activation services (balance, statement, cards, franchise network, maker-checker approvals).

Compliance note / TBD: This release is framework-shaped and operational for digital entity onboarding. Live NADRA Biometric/Verisys and automated sanctions-list vendor integrations are stubbed / manual. Full production compliance go-live is **TBD** pending client and vendor wiring.

DECISION TAT
5 working days

ENTITY TYPES
Annex-C 1-4

DRAFT WINDOW
30 days

2. Business context & problem statement

2.1 Context

Banks and EMIs must onboard legal entities through remote digital channels under SBP frameworks, with documented CDD, Annex-C evidence, sanctions/identity controls, TAT, and auditability. After activation, corporates need a controlled portal for finance visibility and franchise / sub-merchant network management with dual-control workflows.

2.2 Problem

Pain	Impact
Manual / paper-heavy corporate onboarding	Slow TAT, inconsistent packs, high ops cost
Fragmented partner / beneficial-person KYC	Incomplete files, compliance risk
Weak digital audit trail (IP, geo, decisions)	Harder supervision & dispute handling
No unified post-activation corporate portal	Tools fragmented across balance / cards / network
Insufficient maker-checker for sensitive actions	Operational & fraud control gaps

2.3 Solution summary

- Capture entity CDD + Annex-C documents
- Collect partner personal KYC via mobile app where required
- Route cases to platform admin for screening & decision
- Provision DFS corporate / agent accounts on approval

5. Offer activated merchants balance, statement, cards, franchise invites, and approval workflows

3. Goals & success criteria

3.1 Business goals

ID	Goal
BG-01	Digitize corporate entity onboarding for Merchant and Sub-merchant parties
BG-02	Align data & document capture to SBP Framework §E / Annex-C (entity types 1–4)
BG-03	Enforce measurable decision TAT (5 working days) with Tracking ID
BG-04	Enable admin sanctions / identity / document decisioning before activation
BG-05	Provision corporate accounts into DFS Agent stack after approval
BG-06	Deliver post-activation self-service (balance, mini-statement, cards)
BG-07	Support franchise / sub-merchant network with commission plans
BG-08	Provide portal maker–checker–approver–releaser dual control

3.2 Success criteria

ID	Criterion	Measure
SC-01	Signup → OTP → KYC → submit	Tracking ID; PENDING_APPROVAL when partner KYCs complete
SC-02	Admin approve / reject	ACTIVE or REJECTED; credentials on approve
SC-03	Partnership / LLP partner mobile KYC	All partners KYC_COMPLETED
SC-04	DFS provision on approve	SUCCESS / FAILED / PENDING visible
SC-05	Balance & mini-statement	Portal API data when enabled
SC-06	Franchise invites & commission %	Invite + plan lifecycle
SC-07	Portal role gates	Workflow steps enforced

TBD: Commercial KPIs (conversion, fee income, SLA penalties) — client commercial model not in product.

4. Stakeholders & users

Stakeholder	Interest
Bank / EMI business	Corporate acquisition, network growth
Compliance / AML	CDD quality, screening, EDD, audit
Operations / back-office	Queue throughput, discrepancy handling
Corporate Merchant	Onboard once; manage franchises & finance views
Corporate Sub-merchant	Onboard under parent; operate account
Partners (Partnership / LLP)	Complete personal KYC via mobile
Platform Admin	Approve / reject, provision retry
IT / Integration	DFS Account, Portal, CMS APIs, security

5. Scope

5.1 In scope **CURRENT RELEASE**

Merchant self-signup & OTP · Franchise / Sub-merchant invites · Entity types Sole Prop, Small Business, Partnership, LLP · Entity CDD + IP/geo · Annex-C uploads · Partner mobile KYC (OTP, video, CNIC, biometrics) · Admin queue & decisioning · Post-activation dashboard, balance, statement, cards, franchises, portal users, maker-checker · Soft multi-brand support

5.2 Out of scope

Item	Status
Natural-person retail wallet onboarding (Framework \$D)	OUT
Live NADRA BV / Verisys APIs	STUB / TBD
Automated UNSC/ATA sanctions vendor	MANUAL / TBD
Full payment rails / e-money limit enforcement	OUT
EMI licensing, capital, FPT for the EMI itself	OUT
Pricing, tariffs, billing engine	TBD
Hard multi-tenant isolation beyond brand_id	TBD

6. Business requirements

6.1 Onboarding & KYC

ID	Requirement	Priority
BR-ONB-01	Corporate Merchant signup with email OTP	Must
BR-ONB-02	Entity CDD for Annex-C types 1–4 only	Must
BR-ONB-03	Annex-C document packs by entity type	Must
BR-ONB-04	Partnership/LLP partner roster + mobile KYC before pending approval	Must
BR-ONB-05	Sole Prop / Small Business: applicant as owner; mobile KYC	Must
BR-ONB-06	Tracking ID + 5 working-day decision due date on submit	Must
BR-ONB-07	Draft resumable for 30 days	Must
BR-ONB-08	Capture IP and optional browser geolocation	Must
BR-ONB-09	HIGH risk supports EDD notes / video KYC reference	Should
BR-ONB-10	Sub-merchant bound to parent via franchise invite	Must

6.2 Compliance & admin

ID	Requirement	Priority
BR-CMP-01	Admin pending queue with Tracking ID and TAT due date	Must
BR-CMP-02	Manual sanctions CLEAR / HIT path	Must
BR-CMP-03	Identity verification status (manual / waived until BV live)	Must
BR-CMP-04	Approve or reject with written reason	Must
BR-CMP-05	Per-document approve / reject / download	Must
BR-CMP-06	Discrepancy notes to applicant	Should
BR-CMP-07	On approve: ACTIVE + credentials communicated	Must
BR-CMP-08	DFS corporate provisioning when integration enabled	Must

6.3 Post-activation portal

ID	Requirement	Priority
BR-PRT-01	ACTIVE dashboard with KYC / provision / finance snapshot	Must
BR-PRT-02	Agent balance & mini-statement via Portal API when enabled	Must
BR-PRT-03	Franchise invites and commission % plans	Must
BR-PRT-04	Child network visibility (balance/statement where enabled)	Should
BR-PRT-05	CMS card search / inquiry when enabled	Should
BR-PRT-06	Invite portal users; assign Maker/Checker/Approver/Releaser	Must
BR-PRT-07	Enforce MAKER → CHECKER → APPROVER → RELEASER sequence	Must

6.4 Non-functional (business view)

ID	Requirement	Priority
BR-NFR-01	JWT authentication; platform admin role separation	Must
BR-NFR-02	Large KYC media upload support	Must
BR-NFR-03	Email notifications when mail enabled	Must
BR-NFR-04	Availability / RTO / RPO / retention / encryption-at-rest	TBD
BR-NFR-05	Production SLA matrix	TBD

7. Business processes

7.1 Corporate Merchant onboarding

Signup → Email OTP → Login → Entity CDD → Partners (if required) → Annex-C docs
→ Submit (Tracking ID + TAT) → Partner mobile KYCs complete
→ PENDING_APPROVAL → Admin review → Approve / Reject
→ ACTIVE + credentials → DFS provision (if enabled)

7.2 Franchise / Sub-merchant

Parent Merchant creates invite (+ commission %) → Child opens invite link
→ Signup as SUB_MERCHANT → OTP → Onboarding (incl. parent authority docs)
→ Same KYC / admin / provision path → Parent confirms commission plan

7.3 Partner mobile KYC

Invite (phone + temp PIN) → App login → OTP → Change password
→ Video challenge/verification → Submit CNIC + selfie + fingerprints
→ KYC_COMPLETED

7.4 Maker-checker

PARTY_ADMIN assigns roles → MAKER creates request
→ CHECKER → APPROVER (optional skip if checker also Approver) → RELEASER → Done

8. Regulatory & compliance mapping

Primary reference: **SBP Consolidated Customer Onboarding Framework**.

Framework	Business intent	Delivery state
\$B Applicability	EMI / digital RE remote channel	Digital portal
\$C Remote onboarding	Web + mobile KYC	Implemented
\$E Entity opening	Entity fields + persons	Types 1–4
Annex-C	Document packs	Implemented
\$F.1 Identity	Identity status workflow	Manual / waived — BV TBD
\$F.3 Location	IP + geo	Implemented
\$F.4 Sanctions	Screening status workflow	Manual CLEAR — VENDOR TBD
\$G EDD	Risk rating + notes / video	Partial
\$I TAT	5 working days + Tracking ID	Due date captured; ops enforcement TBD
\$J Facilitation	30-day draft resume	Implemented

9. Assumptions & dependencies

ID	Assumption / dependency
AS-01	Client operates as EMI / DFS provider authorised to onboard corporate entities
AS-02	DFS Account, AgentApp Portal, and CMS APIs available in target environments
AS-03	Email (or approved notification channel) available in production
AS-04	Client provides branding, legal entity name, and customer T&Cs — TBD
AS-05	Client compliance signs off stub vs live screening/BV before go-live — TBD
AS-06	Commission commercial terms configured operationally (no billing engine) — TBD

10. Risks & open questions

ID	Item	Type
RQ-01	Final legal product name / logos for Bank co-brand	TBD
RQ-02	Production NADRA / Verisys vendor contract & SLA	TBD
RQ-03	Automated sanctions list vendor	TBD
RQ-04	Data retention, purge, encryption-at-rest standards	TBD
RQ-05	Whether payment approval types execute real payments later	TBD
RQ-06	UAT exit criteria & regulatory examination pack	TBD
RQ-07	Support model, environments, DR	TBD

11. Timeline & commercial

TBD with client PMO / commercial: Implementation phases, licence / subscription / transaction fees, and commission sharing schedule. Product stores commission *percentage plans* only.

12. Glossary

Term	Meaning
DFS	Digital Financial Services / Agent platform integration layer
EMI	Electronic Money Institution
CDD / EDD	Customer / Enhanced Due Diligence
Annex-C	SBP document checklist for entity types
Merchant / Sub-merchant	Parent / child corporate party
Tracking ID	Unique case reference after submission
TAT	Turnaround time for onboarding decision
Maker-Checker	Dual-control approval workflow

13. Approvals

To be completed by Bank / EMI stakeholders.

Client business sponsor	Client compliance
Name / Signature / Date	Name / Signature / Date
Product owner	Delivery lead
Name / Signature / Date	Name / Signature / Date

This BRD is the business baseline for DFS Corporate Portal. Detailed behaviours are in FSD DFS-CP-FSD-001. Product positioning is in Product Document DFS-CP-PD-001. — End of BRD
